

# PRODUCT DATASHEETS

PE/2021

 **FAEMA**

# Coffee Management

## FAEMA ADJUSTABLE THERMAL BALANCE SYSTEM

FAEMA's adjustable thermal balance system allows to regulate the water temperature and to adapt each group to different blends of espresso coffee.

## FAEMA NEW FILTER HOLDERS

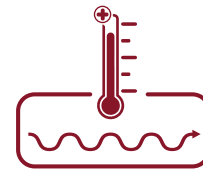

FAEMA's coffee machines feature an innovative micrometric spout, which guarantees the two cups. Every portafilter comes with a screw that enables users producing drinks. They are available in two versions; stainless steel and brass (standard).

# Milk Management

## MILK PS

Allows a consistent in-the-cup milk dose, customizing milk temperature for each selection and ensuring high quality of the milk cream.

## SMART BOILER

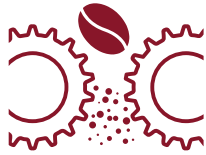

This patented innovation makes it possible to manage the accumulation of energy conserved in the boiler to enable a constant maximum steam and water supply even when machine is undergoing intensive use. This eco-friendly technology means that the barista will never be in a situation where there is an insufficient steam flow to make the required drinks.

## TELEMETRY

This technology enables data communication and remote monitoring of all the machine's functions and performance via a Wi-Fi connection.

# User

## PGS

For automatic adjustment of the grinding in traditional and super-automatic machines.

## RUVECOTECK (FOOD SAFETY)

In order to ensure maximum food safety, Ruveco Teck treatment is the process that drastically reduces the quantity of metal in the drinks delivered.

## MilkPs, Solubles

**Performance**

<b>Coffee Output</b> (cups/h)	<b>160</b>
<b>Cafè Creme</b> (cups/h)	<b>100</b>
<b>Cappuccino Output</b> (150 cc cups/h)	<b>160</b>
<b>Hot Water Output</b> (L/h - 500cc quantities)	<b>25</b>

The new **X15**, smart and versatile fully automatic machine, is designed to guarantee a wide menu of beverages even more customizable, as well as a superior capacity of its boiler. User-friendly and professional, **X15** is the perfect ally for office environments or other locations that require medium-low daily performance. Bi-directional telemetry on board.

-  Recommended cups per day: up to 150
-  Metal reinforced technopolymer coffee group
-  Embedded solubles system
-  Smart Boiler
-  7.0" touch screen, up to 96 drink selections
-  HQ Milk
-  MilkPs
-  New motorised spout
-  AWS - Automatic washing system
-  Bi-directional Telemetry
-  USB
-  Wi - Fi connectivity

Features	X15 CS11
Touch Screen drink selections	up to 96 (8 per page)
Hot water selections	2
Boilers and capacity (L)	1 x 2
Grinder-dosers	2
Coffee hoppers and capacity (Kg)	2 x 0,65
Soluble hoppers and capacity (Kg)	1 x 1,5
Coffee group diameter (mm)	38 or 46
Mixer soluble powder	1
Steam wand	-
No-coffee sensor	-
Main spout	Motorised

## Accessories

- **Accessories - X Series** ..... 50

## ACCESSORIES - X SERIES

### REFRIGERATED UNIT BR9C

- Milk cooler with glass door.
- Lockable front door.
- Digital thermostat: ON/OFF function; Settable milk temperature.
- Preserves up to 4,2 L of milk.

#### Technical information

Product Unit Dimensions Width x Depth x Height (mm)	220 x 512 x 446
Inner Dimensions Width x Depth x Height (mm)	160 x 190 x 280
Power at 220-240V 50Hz (W)	-

### REFRIGERATED UNIT WITH CUPWARMER

- Refrigerated unit with a real compressor.
- Preserves up to 4 litres of milk.
- Electric cup warming unit.
- Removable wire baskets, where to store the cups (upon request).
- Dimmer to control the temperature.
- Digital thermostat: ON/OFF function; milk temperature reading and setting (+/- 0,1°).
- 2 cup warming shelves.

#### Technical information

Width x Depth x Height (mm)	290 x 435 x 738
Power at 220-240V 50Hz (W)	360
Power at 220V 60Hz (W)	360

## ACCESSORIES - X SERIES

### CUPWARMER

- Electric cup warming unit.
- Removable wire baskets, where to store the cups (upon request).
- Dimmer to control the temperature.

#### Technical information

Width x Depth x Height (mm)	290 x 435 x 738
Power at 220-240V 50/60Hz (W)	230

### REFRIGERATED UNIT

- Refrigerated unit with a real compressor.
- Preserves up to 8 litres of milk.
- Digital thermostat: ON/OFF function; milk temperature reading and setting (+/- 0,1°).

#### Technical information

Width x Depth x Height (mm)	290 x 435 x 738
Power at 220-240V 50Hz (W)	360
Power at 220V 60Hz (W)	360

## ACCESSORIES - X SERIES

### REFRIGERATED UNIT "DUAL MILK"

- Refrigerated unit with a real compressor.
- Preserves up to 8 litres of milk.
- Digital thermostat: ON/OFF function; milk temperature reading and setting ( $\pm 0,1^{\circ}$ ).

#### Technical information

Width x Depth x Height (mm)	290 x 435 x 738
Power at 220-240V 50Hz (W)	360
Power at 220V 60Hz (W)	360

### FRIGOMILK

- Refrigerated unit to preserve up to 3 litres of fresh milk.

#### Technical information

Width x Depth x Height (mm)	220 x 350 x 320
Weight (kg)	5,5
Power at 220-240V 50/60Hz (W)	70

## CAPTION

### PROCESS CERTIFICATION

ISO9001: Zertifizierung des Qualitätsmanagementsystems.  
OHSAS18001: Zertifizierung des Arbeitsschutzmanagementsystems.  
ISO 14001: Umweltmanagement –Zertifizierung.

### PRODUCT AND SAFETY CERTIFICATIONS

Safety certification and testing of consumer and industrial products and components.

The UL-EU Mark certifies that the tested products comply with the European (EN) standards. The Mark applies to both electrical and electronic products and components intended for use in Europe.

The D-Mark is a safety mark registered and provided by UL-Demko.

With the CE mark, which is obligatory in the European Union member countries, the manufacturer states that the individual product is compliance with the general safety regulations in the CE-marking directives.

The Eurasian Conformity mark indicate products that conform to all technical regulations of the Eurasian Customs Union. EAC-marked products meet all requirements of the corresponding technical regulations and have passed all conformity assessment procedures.

### HYGIENE, HEALTH AND ENVIRONMENT

It certifies the hygienic quality of machines intended for production of food and beverages.

All the machine components in contact with water and steam undergo the Ruveco Teck coating process which drastically reduces the risk of release of metals in the delivered beverages.

It certifies that the electrical and electronic equipment do not contain levels of lead, cadmium, mercury, hexavalent chromium, polybrominated biphenyls (PBB) and polybrominated diphenyl ethers (PBDEs) above the legally permitted limit.

### IN-THE-CUP QUALITY

Istituto Nazionale Espresso Italiano.

## **SALES CONDITIONS**

- Goods packed in standard cardboard boxes and delivered FCA, Via Archimede, 3 - Binasco (MI).
- Retail prices.
- Prices in Euro.
- Valid from January 2021.

## **GENERAL NOTES**

- The installation of the softener is compulsory when the machines are fed by water harder than 8 degrees F.
- Could the main pressure exceed 6 bars (85,34 psi), the installation of a pressure reducer is required.
- The present price list cancels and replaces all previous editions.
- Optional: extra components directly assembled in factory.
- Accessories: finished goods or extra kits installed by the distributor.

The manufacturer reserves the right to modify the devices included in this publication without prior notice.
