

gs3

professional grade espresso equipment,
built for the home.

Available Configurations: MP | AV

Available Number of Groups: 1

The La Marzocco engineering group set out to take the most advanced La Marzocco technology and translate it for a home espresso machine. The GS3 features the thermal stability system used in the La Marzocco Strada, including a preheating system, digital PID controller, saturated groups, a dual-boiler system, and digital display. These features make for a luxury espresso preparation platform: everything you could hope for as someone who wants to enjoy the best-quality espresso at home. All that's left for you to do is to grind, dose, and tamp. Thanks to the new electronic board, the GS3 can now be connected to the internet and controlled through the new La Marzocco Home App, available on AppStore and GooglePlay.

Dual Boilers

Saturated Group

Digital Display

Ruby Flow Restrictors

Half Power Mode

Insulated Boilers

Internal Pump

Dual PID (coffee & steam)

Water Reservoir

Periscope Pressure Gauge - MP

Conical Valve - MP
